

A young child with light skin and dark hair, wearing a bright red sleeveless top, is lying on their stomach in a lush green field filled with white daisies. The child is looking down at the flowers with a gentle smile. The background shows a soft-focus field of more daisies and a few distant figures, suggesting a park or a natural setting. The overall mood is peaceful and natural.

CURLS FOR MEN BY 2023 PREDICTS ANTHROPOLOGIST

Bases His Statement on
Trend of Masculine and
Feminine Styles.

WE SHOULD WORRY.

Good night! It is now predicted that by the year 2023—only a mere little stretch of a century ahead—women will probably be showing their—heads! And the men will be wearing curls. Also the maidens may pronounce the height of style in personal primping to be their teeth. Won't we be pretty?—Savage News.

No More Hard Work by 2023!

DR. CHARLES P. STEINMETZ, the electrical expert, believes that the time is coming when there will be no long drudgery and that people will toil not more than four hours a day, owing to the work of electricity.

By 2023 the average life of man could be increased to 100 years. In individual cases it could be increased to 150, perhaps 200 years.

has enough to eat in 2023. Utensils and dwellings will be manufactured largely of pulps and cements so as to utilize vegetation and stone in every stage of decay, ordinary waste or unfitness.

“Public Bodies should seek to ensure that they meet today’s needs without compromising the ability of future generations to meet their own needs”

Prosperous

An innovative, productive and low carbon society which recognises the limits of the global environment and therefore uses resources efficiently and proportionately (including acting on climate change); and which develops a skilled and well-educated population in an economy which generates wealth and provides employment opportunities, allowing people to take advantage of the wealth generated through securing decent work.

Resilient

A nation which maintains and enhances a biodiverse natural environment with healthy functioning ecosystems that support social, economic and ecological resilience and the capacity to adapt to change (for example climate change).

Healthier

A society in which people's physical and mental well-being is maximised and in which choices and behaviours that benefit future health are understood.

**LLESIANT
CENEDLAETHAU'R DYFODOL
WELL-BEING OF
FUTURE GENERATIONS**

More Equal

A society that enables people to fulfil their potential no matter what their background or circumstances (including their socio economic background and circumstances).

Globally Responsible

A nation which, when doing anything to improve the economic, social, environmental and cultural well-being of Wales, takes account of whether doing such a thing may make a positive contribution to global well-being.

Vibrant Culture and Thriving Welsh Language

A society that promotes and protects culture, heritage and the Welsh language, and which encourages people to participate in the arts, and sports and recreation.

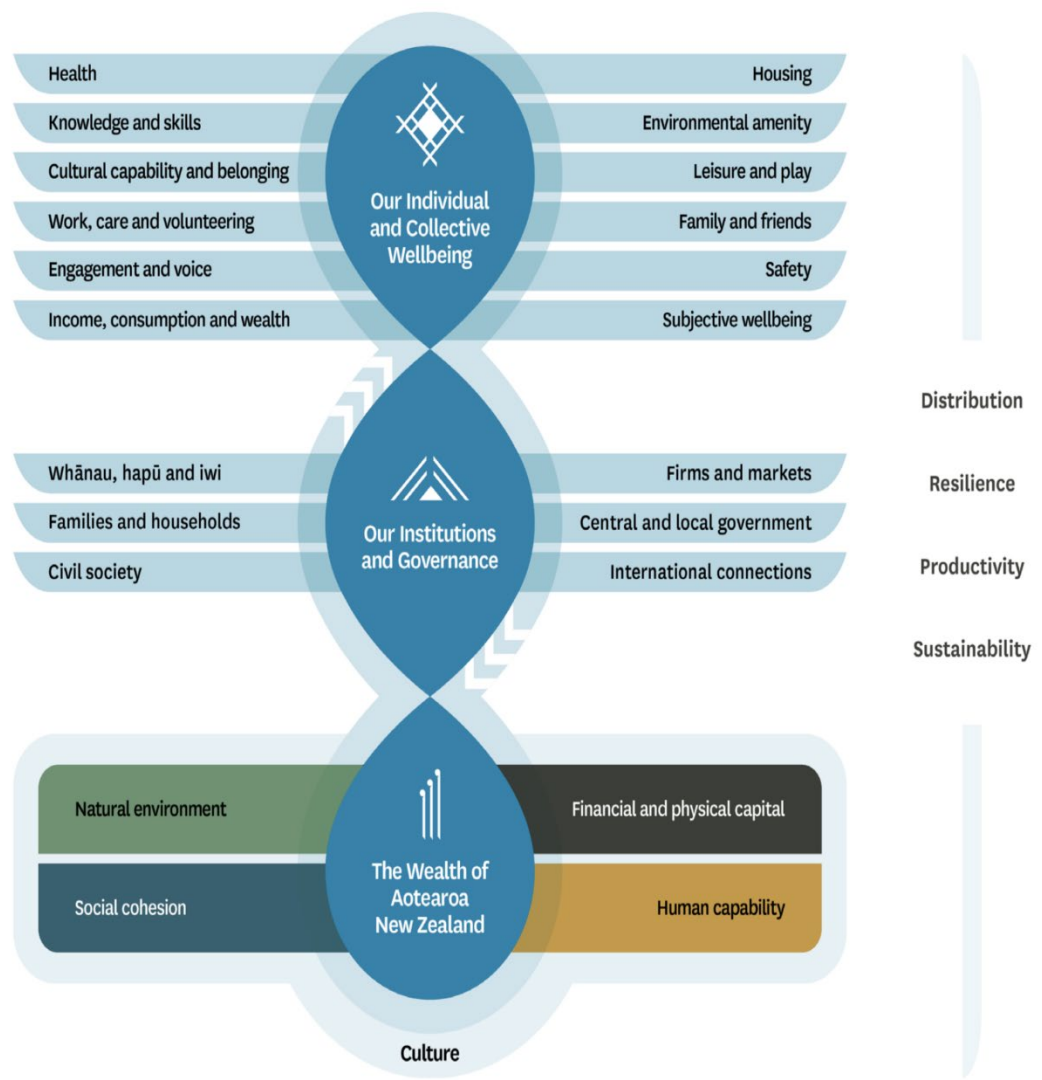

Cohesive Communities

Attractive, viable, safe and well-connected communities.

5 Ways of Working

Long-term

The importance of balancing short-term needs with the needs to safeguard the ability to also meet long-term needs

Prevention

How acting to prevent problems occurring or getting worse may help public bodies meet their objectives

Collaboration

Acting in collaboration with any other person (or different parts of the body itself) that could help the body to meet its well-being objectives

Integration

Considering how the public body's well-being objectives may impact upon each of the well-being goals, on their objectives, or on the objectives of other public bodies

Involvement

The importance of involving people with an interest in achieving the well-being goals, and ensuring that those people reflect the diversity of the area which the body serves

Long Term

Balancing short term and long term and exploring alternative futures

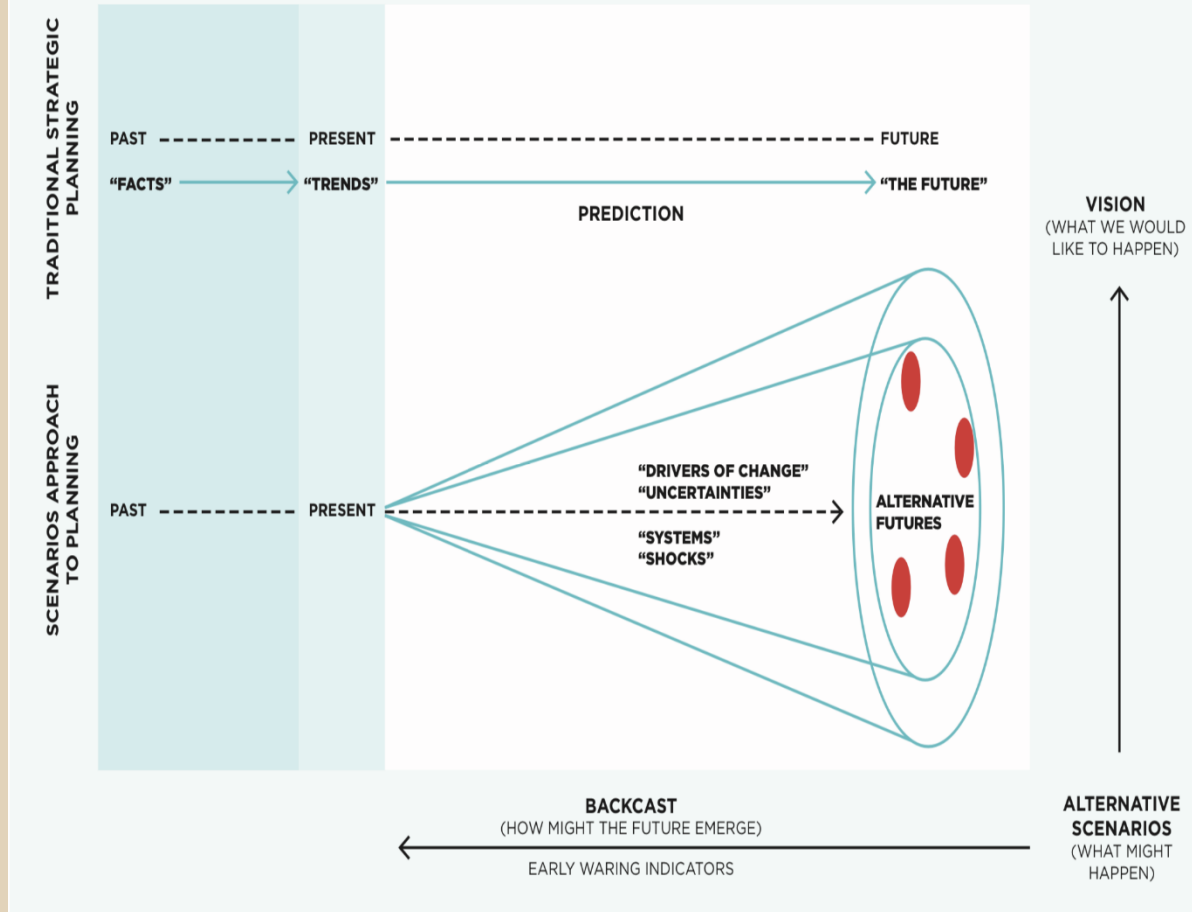

Figure 4. Bringing the futures back to the present. Foresight approaches differ from forecasting and other attempts to predict the future using linear trends. Foresight explores possible futures (●), to help you prepare for alternatives, and to understand your preferred future or vision.
